MEMORANDUM FOR: Chief, Engineering Division, OC

FROM: Chief, Domestic Networks Division, OC

SUBJECT: Use of Touch Tone Telephones

STAT

1. Questions concerning the use of touch tone telephone instruments have arisen as members of our staff have worked on specifications for a government owned switch for unclassified telephone service. The subject has been reviewed and there is no present prohibition against the use of touch tone equipment.

2. Rotary dial equipment is not being widely manufactured and such equipment is not readily compatible with many new switch systems. Therefore, we will use touch tone equipment where technically desirable for new installations and systems unless costs are excessive. DND does not plan to change presently installed rotary dial telephones with touch tone instruments for the sake of convenience or customer preference.
